-

SELF LOADING CONCRETE MIXER

KEY FEATURES

Self loading capability: the machine can load its own mixer drum with aggregates, cement & water eliminating the need for separate loading equipment.

Mixing & blending: the machine mixes & blends the concrete ingredients to produce a uniform mixture.

Transportation: the machiner can transport the mixed concrete to the desired location

Advantages

- Increased efficiency
- Cost effective
- Improved productivity
- Flexibility
- Reduced labor requirements
- Consistent quality

Common applications

- Road construction
- Building construction
- Bridge construction
- Infrastructure projects

GENSPECH INVESTMENTS offers a wide range of construction supplies, including waterproofing materials, electrical wires, and fiber mesh.

Some of our products

- Copper pipes
- Ceiling boards
- Galvanized & Pvc Pipes
- Garage doors Awnings
- Electrical Wires & Cables

WE HIRE

Power Float

A power float is a machine used to smooth and finish concrete surfaces. It consists of a rotating disc or plate that floats on the concrete surface, removing imperfections and creating a smooth finish.

Poker (Concrete Vibrator/Poker Vibrator)

A poker, also known as a concrete vibrator or poker vibrator, is a tool used to consolidate and eliminate air pockets in freshly poured concrete. It consists of a vibrating shaft (poker) that is inserted into the concrete to remove air bubbles and ensure a dense, uniform finish.

CONSTRUCTION

We are a commercial development company excelling in project management, consistently delivering projects on time and within budget, with a focus on interior and exterior construction projects.

MACHINE HIRING

We hire machines which include:

- **Concrete mixer** - combines cement, water & aggregates such as sand, gravel to produce concrete.
- **Static pump**- an essential equipment in construction, offering efficiency & flexibility in concrete pumping.
- **Boom pump**- it offers efficiency, precision & reliability in concrete placement.
- **Power float**- enables contractors to efficiently produce high quality finishes on concrete surfaces.
- **Poker** - it helps to ensure the quality & durability of concrete structures.

Electric concrete mixer

Electric concrete mixers offer a convenient and efficient way to mix concrete for various applications.

Benefits

1. **Efficient mixing:** Quickly and thoroughly mixes concrete.
2. **Easy to use:** Simple operation and minimal maintenance.
3. **Environmentally friendly:** Produces less noise and emissions compared to gas-powered mixers.
